Mr. Ringo to the Hartford Republican.

The Hartford Republican newspaper of the 27th uit., pays me the compliment to devote much of its valuable space to the discussion of my article in The Her-ALD of last week. In fact, they are among a number of misguided persons who are chewing a file, because the LAW does not agree with what they have here tofore had to say about it. I infer from what these bucolic young men have to say about the present election law, that they-and others-are not exactly pleased with the law itself. This is unfortunate, of course. I make no application of this couplet, but some poet has said:

"No rogue e'er felt the halter draw, With good opinion of the law."

I am asked some questions by the Republican. First-"Would you be willing to entrust the elections of Kentucky in the

bands of three Republican commissioners?" Answering, I state that, whether willing or not, such would be my situation, except for the last amendment to the election law, that I would be obliged to see that one thing happen. And not only so, but see Attorney General Wm. Taylor who was taken suddenly very ill yes This will be one of the himself, sit as a member of the board for doing this work; and along with him largest political gatherings ev- the present Republican Governor of the State and the present Republican Sec- hour of going to press. and Virgil, of Sunnydale, called to see er held in Ohio county. Prepretary of State. Section 1512 of the Kentucky Statutes, being the same as secarations are being made for tion 6 of article 5 of chapter 33 of the General Statutes, provides as follows: "The Governor, Attorney General and Secretary of State, and in the absence Rev. and Mrs. E. P. Crowe and 6,000 people. Bring your of either, the Auditor, or any two of them, shall be a board for examining the rewives, daughters, sons and turns of election, for any of the offices named in the last section." The offices friends, and let them bask in named are all the State offices, including Governor and Lieutenaut Governor, as the sunlight of Democratic en- well as Circuit Judge, Commonwealth's Attorney, Congressmen and electors for President. I now submit that these three partisans, who are office-holders grants from Italy, Austria-Hungary and and aspirants for office, whose very political life is hanging upon the result of this election, would not be by any reasonable man presumed to act more fairly roads and other information, than three disinterested men, whose only connection with the government is to

than three disinterested men, whose only connection with the government is to carry into effect their oath of office, that they will guarantee to the people of Kentucky fair and honest elections.

The second question is: "Mr. Ringo, would you be willing to exchange with the Republicans of Kentucky?" I am then told that I will be thought insincere unless I answer both these questions in the affirmative. This is unfortunate for me, because I do not just now think of any of the few little things I have the second question of the second question in the affirmative. This is unfortunate for me, because I do not just now think of any of the few little things I have the second question in the affirmative. The second question is:

If it is meant, however, to inquire if I am willing to entrust the Republican party of Kentucky with the administration of this or any other 308,068 acres of unappropriated and unlaw, I answer very frankly I am not. That there are very many honest and capable men in that party, I do not question. But the history of that party's admin. reserved public lands in the United istration of the laws in Kentucky has not been such, I think, as to warrant et. States, trusting them with further power. Evidence of this is seen in everything. Mr. Bradley was pledged to stop all mob law in this State, and to do many other things, possible and impossible. Yet under his administration more men have died from violence at the hands of mobs and otherwise than during any other like period of Kentucky's history except only the period of the civil war. The colored man was promised much. He, as well as his white neighbor, has seen his taxes raised ten per cent, and his fund for the education of his child, reduced in amounts ranging from ten to fifty cents per capits. The people of Ohio county saw this county plunged more than \$35,000 into debt, with their taxes at the highest point the Constitution would allow during eight years of Republican adthere, Douglas, was taken sudden. Greenville, and he gave me all the in- ministration. These are some incidental reasons why I do not want to "exchange ly ill Friday night at the residence of formation he could. The young man quotes section 2567 Kentucky Statutes, granting an appeal in local option elections and then he sagely tells us "This section is not repealed or modified in any way by the act known as the Goebel election law," and yet section 2507 became a law as the act of March 10, 1894, and the Goebel bill became Miss Mabel Hubbard has accepted If I live to get to the polls November 7 a law March 11th, 1898, and section 16 of that Goebel law declares "all acts and parts of sets in conflict with this act are, to the extent of such conflict, repealed" (Kentucky Statutes, section 1596.) If therefore the provision for an appeal from the decision of the board under 2567 is in conflict with the provisions of the Goebel law, then the power is repealed by the latter. This any lawyer or intelligent layman will, I think, agree. The simple truth is, as every lawyer worthy of the name must know, there is now just as there has always been, the right of appeal from every decision of the county board of contest,

Now finally I state the fact to be that neither as to the right of appeal from to Lura M. Stevens, Vasco Atherton to be seld October 28th, and postponed on the decision of county board of contest nor the State board of contest, has there Flaudie Porter, Wm. W.
